

Implant Continuum™ Windsor/Essex 2022

Pierre Obeid, DDS
London, ON

32
CE Hours

A movement from theory to practice. There are many excellent implant training programs available in both Canada and the United States. After obtaining a solid foundation in the field of implant dentistry through several weekend courses, countless hours of theory and some hands-on training on models, it is not always easy to start placing implants on your own. Many clinicians start with simple, straight-forward implant cases, usually “slam dunk” cases, which is a safe and predictable place to start. As time passes and the information you gained from your training fades, it becomes a challenge to treatment plan and confidently perform more complex cases. If this sounds familiar and you would like to be part of a program that can help you achieve your goals in implant dentistry, then Implant Continuum™ Canada may be exactly what you are looking for.

More than a study club

- Small group learning environment; maximum of 12 participants
- Up to 4 one-day, hands-on surgeries on your own patients
- On-going clinical support before and long after the session is over
- You may bring your own assistants to observe, take notes, learn to set-up rooms, as well as, become valuable members of your surgical team

Course Dates / Schedule

8:00am to 5:00pm

Saturday, October 1, 2022
Saturday, November 12, 2022
Saturday, February 2, 2023
Saturday, March 18, 2023

Location

TBD

Tuition

\$6,995 + tax

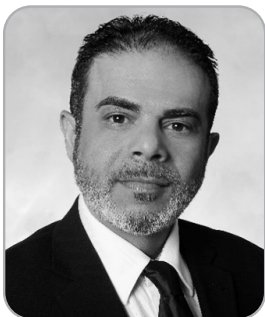

A \$1,000 non-refundable deposit is required upon registration

Implant Continuum™ Windsor/Essex 2022
